GPS Tune-up Service \$20.00 (plus 7.99 return shipping)

(For Garmin auto GPS that are **out of warranty**, Service has a 30 day warranty on repairable units)

GPS units are small computers, fortunately they are more dependable than many computers but they can have computer type problems like corruption of operations software and user data which will interrupt normal operation. Our GPS Tune-up can resolve all but the most serious hardware failure problems. Units that have been water damaged or have broken display screens or components cannot be fixed by a tune-up.

Tune-up Services:

- Diagnose and determine problems
- Install latest version operating software (not map update, sold separately)
- Reset unit back to factory setting
- Test & check power cables
- Check & replace fuses
- Check & clean connections
- If GPS is not repairable the tune-up fee can be applied to a new or refurbished unit at www.MegaGPS.com
- Tune-up fee includes return shipping costs

Optional Services:

- **Battery Replacement \$19.99** (1 Year Warranty)

For: Nuvi 200, 200W, 205, 205W, 250, 250W, 255, 255W, 260, 260W, 265, 265W, 270, 275, 350, 360, 370, 650, 660, 670, 680, 750, 755, 760, 765, 770, 775, 780, 785, 850, 855, 1200, 1250, 1260, 1300, 1350, 1360, 1370, 1390, 1450, 1490, 1690, 1695, StreetPilot c330, c340, c530, c550.

- **Speaker Replacement \$19.99** (1 Year Warranty)

For: Nuvi 350, 360, 370, 650, 660, 670, 680

- **Touch Screen Replacement \$49.99** (1 Year Warranty)

For: Nuvi 200, 200W, 205, 205W, 260, 350, 360, 370, 650, 660, 670, 750, 760, 770, 780, 1450, 1490 Oregon 200, 300, 400

- **2012 Map Update Installed \$59.99** (installed map price).

For: ALL Nuvi models, All StreetPilot models that came preloaded with full USA maps.

Currently tune-ups can only be done for the following GPS models:

Comments: _____

* **Send GPS Unit, Mount and Vehicle Power cable.**

Note: Many software problems come from user data corruption. To resolve the problem the unit may need a hard reset and to erase the user data, your addresses and POIs. Do not send the unit if loss of your personal data will be unacceptable to you.
